

STEAM GENERATOR CARMEN PLUS

Body material

Upper body cover: **PE** - Lower body cover: **varnished steel**

Boiler material

Stainless steel AISI 304

(with interchangeable heating element)

Boiler volume

4 L

Tanks

Water: **3 L** - Det: **3 L**

Maximum output

3,65 kW

Boiler output

3,6 kW

Steam production

97 g/min | 5,9 Kg/h

Power supply

1~ 230V - 50/60 Hz

Steam T°

165° C

Detergent T°

90° C - 160° C

Vacuum output

1,2 kW

Vacuum drum capacity

5,5 L

Air flow

200 m3/h

Depression

2200 mm

Power cord

8 m

Weight

33 Kg

Packaging

60x45x75 cm

APPLICATIONS

Single-phase steam generator for usage in the professional sector, with a varnished steel body, unlimited steam autonomy thanks to the automatic refilling system (electromechanical water level control system inside the boiler – True Temp™). Possibility to inject detergent (or hot water as optional) together with steam.

Equipped with a wet&dry vacuum cleaner with float. The steam generator's front panel is equipped with an electric console with commands for a timer, a thermometer and a pressure gauge; the digital display will advise the user about the necessity to proceed with the boiler maintenance.
